Premium 95™ Solution Grade HA

Solution Grade Gypsum and Humic Acids Wettable Powder

GUARANTEED ANALYSIS

Calcium Sulfate Dihydrate ($CaSO_4 \cdot 2H_20$).....95.00%
Calcium (Ca) 22.12%
Sulfur (S) 17.58%
Derived From: Mined Gypsum

ALSO CONTAINS NONPLANT FOOD INGREDIENTS
0.75% Humic Acids (derived from Leonardite)

Sieve Analysis:	Minimum % Passing:
100 mesh	99.5%
200 mesh	97.6%
325 mesh	92.0%
Moisture, maximum	0.05%

GENERAL INFORMATION:
Premium 95™ Solution Grade HA is a combination of Diamond K's Premium 97™ Solution Grade Gypsum and high-quality humic acids, combined for convenience in a wettable powder form. This product can be converted to liquid and blended with most fertilizers which may aid in the uptake of micronutrients, and provides the purest available form of mined gypsum.

APPLICATION INFORMATION:
Premium 95™ Solution Grade HA is very finely ground for use in dissolution equipment, including most solutionizing machines used in fertigation.

- Have the water analyzed properly.
- Maintain the water pH between 6.5-7.0 (for micro or drip applications).
- Ensure that the pH is adjusted properly BEFORE adding gypsum or other calcium-containing products.
- When adding phosphorous fertilizer, be sure to use an acid form of fertilizer.
- Use scale preventative products as needed.

Premium 95™ Solution Grade HA is safe and effective for most liquid applications such as micro-jet, drip, foliar, hydroponic and greenhouse use.

COMPATIBILITY:
Jar test for compatibility prior to mixing with any pesticides, fertilizers or fertilizer blends. For unfamiliar mixes, an appropriate amount of the final mix should be applied to a small area of the intended crop to ensure plant compatibility prior to the planned application. The user assumes full responsibility to ensure product, equipment and plant compatibilities.

STORAGE AND HANDLING:
Avoid creating dust when handling. Prevent exposure to moisture.

This product is not considered hazardous under the U.S. OSHA 29 CFR 1910.1200 Hazard Communication Standard.

NOTICE: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. Buyer shall assume all risks of use including, but not limited to crop injury, ineffectiveness or other unintended consequences as may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of the seller. In no case shall Diamond K Gypsum, Inc. be liable for consequential, special, or indirect damages resulting from the use or handling of this product.
Always refer to the label on the product before use.
